RENO, NEVADA,

Annual Census Roll.

Nov. 3, 1915.

The Commissioner of Indian Affairs,

Washington D. C.

Sir:

Referring to the above letter of October 26, 1915, calling for the census roll of the Indians under this office, I desire to call attention to our correspondence of former years on this subject. There is no census of the scattering Indians of Nevada and California, who are reported as under the supervision of this office. There never was such a census and to prepare such a census with any degree of accuracy would require several months work of a competent clerk and large traveling expenses. I at one time suggested to the Office that we might get this census from the records of the Census Bureau by Counties in Nevada and portions of California, but after some consideration, the Office decided that the necessary clerical help was not available, since which time nothing has been done. I could of course furnish the names of a great many of the Indians, but the census would not be complete by any means, nor do I think it would serve the purpose.

Very respectfully,

*A. H. Asbury*  
Special Indian Agent.

DEPARTMENT OF THE INTERIOR

Circular No. 1254 UNITED STATES INDIAN SERVICE  
Annual Census Roll.

Reno, Nevada, May 21, 1917.

Commissioner of Indian Affairs,  
Washington, D. C.

Sir:

Referring to the above circular of April 27, 1917, we desire to call attention to the inability of this office to submit a census of the Indians under our jurisdiction. It has been impossible in the past to secure such a census owing to the fact that it would necessitate the time of a competent clerk for at least six months and the traveling expenses would be very high. It is noted that the number of Indians under this jurisdiction in the past has been generally estimated at about from six to eight thousand. Of these there are about thirty-five hundred in Nevada.

According to the last census, the Indian population of California is given at 21,611. As practically two-thirds of California is under the jurisdiction of this office, it is very probable that the number of non-reservation Indians in that territory exceeds our estimate for the entire number of Indians under our jurisdiction.

3074  
Commissioner-2

We have during the past year taken a census of Indians residing in various communities of Nevada but these comprise only a very small portion of the jurisdiction and probably will not suffice for the purpose that the annual census roll is required. However, if it is deemed advisable we shall be glad to submit these census rolls as far as they have already been taken.

Very respectfully,

*E. J. Cunningham*  
Special Agent.

Circular No. 1431  
Census, 1918.

UNITED STATES INDIAN SERVICE

RENO INDIAN AGENCY.

Reno, Nevada,

August 14, 1918.

The Commissioner of Indian Affairs,

Washington, D. C.

Sir:

In connection with the census of the Indians under this jurisdiction, we desire to make the following report:

This is not a reservation agency and with the exception of the colony sites, there are no reservations under the jurisdiction of this agency. There are about eight thousand Indians in the territory covered by this office, scattered a few families about each town, village, mining camp and farming community in an area of nearly 225,000 square miles. With our limited office and field force, it is an absolute impossibility to collect a census of the Indians in this jurisdiction, as such an undertaking would require the entire attention of one man for from six to eight months of each year. We trust that under the circumstances, this agency be relieved from complying with this requirement.

Very respectfully,

*W. J. Cunningham*  
Special Agent in Charge.

DEPARTMENT OF THE INTERIOR  
UNITED STATES INDIAN SERVICE  
RENO INDIAN AGENCY.

Reno, Nevada,

Aug. 26, 1919.

The Commissioner of Indian Affairs,  
Washington, D. C.

Sir:

In connection with the census required from each reservation in connection with the Annual Report, we desire to respectfully invite attention that the Reno Agency is a non-reservation agency, that our Indians are scattered over a territory covering nearly 225,000 square miles, that this jurisdiction contains approximately 8,000 Indians, that our agency force is very small and there are many of these Indians we have, as yet, never come in contact, consequently it is utterly impossible under the circumstances to furnish a census of these Indians.

Very respectfully,

L. A. DORRINGTON.  
Special Agent in Charge.

*John Toland* Clerk.

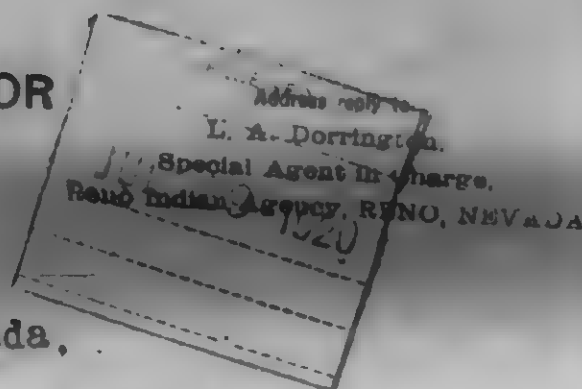

Census.  
Annual Report.

5-1142

DEPARTMENT OF THE INTERIOR  
UNITED STATES INDIAN SERVICE  
RENO INDIAN AGENCY.

Reno, Nevada.

July 25, 1920.

The Commissioner of Indian Affairs,  
Washington, D. C.

Sir:

Desire to respectfully report it is impracticable and impossible for the Reno Agency to submit a census of the Indians under this jurisdiction, as is required in connection with the Annual Report. The Indians are widely scattered over a territory 225,000 square miles in extent, a few families at nearly every town, village, mining community, farming center, etc. Travel facilities are limited and it would take one man six months to a year to visit every community within this territory. Furthermore, the small agency and field force connected with this office is already heavily over-crowded with work making it impossible to undertake a census of the eight thousand Indians under this office, in addition to other duties.

Under the circumstances, we trust the Reno office will be relieved from submitting a census.

Very respectfully,

*L. A. Dorrington*  
Special Agent in Charge.

*Recd.*

DEPARTMENT OF THE INTERIOR

UNITED STATES INDIAN FIELD SERVICE

Reno, Nevada

July 8, 1922

Mr. James E. Jenkins,  
Superintendent,  
Reno Agency,  
Reno, Nevada.

My dear Mr. Jenkins:-

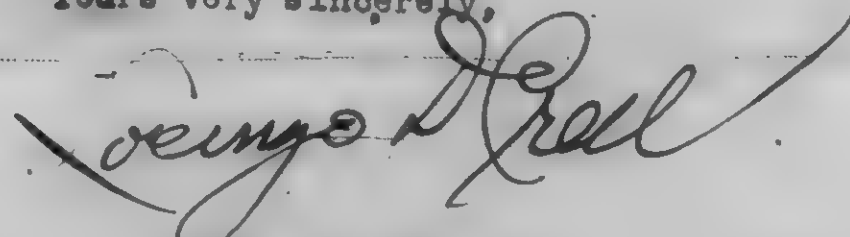

I transmit herewith the census of the Pyramid Lake Piutes for 1922 in quadruplicate. It is doubtless far from correct, but is the best that can be done at present. From time to time for several weeks while engaged in other work on the reservation I have endeavored to correct the census of 1921 and bring the work up to date by adding names and ages of children born of enrolled parents and dropping the dead, of whom I discovered many had been dead for several years but carried on the roll. I also, as far as possible, gave the reported address of all those not on the reservation when known.

The census appears to have been in the past given but little or no consideration, while in reality it is of first importance owing to the fact that speedy allotment is being urged. In addition to keeping the census corrected and up to date it has occurred to me that in view of its importance and the likelihood of intelligent old Indians knowing the history of families passing away at any time, that an effort should be made to write up a family history of these people. Such a history would undoubtedly be of much value in allotment and settlement of estates in the future. As I am so well acquainted with practically all the members of this tribe and know the sources for reliable information, I would gladly do this work if allowed a small amount of proper

(1)

2  
funds for stenographic assistance. If this meets with your approval  
I respectfully suggest that you make the request for this work from the  
Office, while it would have these funds on hand before allotted else-  
where.

Yours very sincerely,

Lorenzo D. Creel,  
Special Supervisor.
